**2000 ANNUAL REPORT**

## LETTER FROM THE CHAIR

---

The Allen Foundation's priorities have not changed since its establishment. The connections between diet and health remain a basic and primary priority, and consideration has always been given to projects that benefit nutritional programs in the areas of education, training, and research. A lower priority has traditionally been given to proposals that help solve immediate or emergency hunger and malnutritional problems. One specific hope of the board of trustees in the future is to encourage the inclusion of mandatory courses in nutrition in medical schools. Another desire is to create an imposing awareness among children of the importance of nutrition in their lives. The board would thus particularly welcome proposals in these areas.

The foundation would like to be in a financial position to assist all grant requests, but its resources are unfortunately limited and in many cases have already been committed. Consequently, applicants should never view possible declinations to fund proposals by the foundation as judgments on the actual merits of their proposals.

*Roberta R. Allen, Chair*
